Click the handset to let the Moderator know you are using the telephone to speak.

In session for 3 hours, 44 minutes.

Detailed description: The image shows a screenshot of a CCC Confer online training session. The interface is divided into several sections. On the left, there is a 'Participants' list showing 'ET (Moderator, Profile)', 'Daniel 3', and 'Kay (Me, Profile)'. Below this is a 'Chat' window with a message 'Joined on September 16, 2010 at 10:37 AM'. At the bottom left, there is an 'Audio' section with a handset icon and the text 'Teleconference available'. The main area of the window is a 'Whiteboard - Main Room' displaying a photograph of a white lighthouse with a red lantern room. A toolbar on the left side of the whiteboard contains various drawing and editing tools. A 'Contact Us' link is visible at the top of the whiteboard area. The bottom right corner of the window shows the session duration: 'In session for 3 hours, 44 minutes.' Several green callout boxes with black text provide instructions for using different features: 'Print screens, send files, take notes.' points to the top toolbar; 'Participant Window: See who is connected to the meeting, raise your hand, use emoticons and voting tools.' points to the participants list; 'Chat Window: Read and send text chat to all, or privately.' points to the chat window; 'Audio Window: Use VoIP to Speak (requires permission).' points to the audio controls; 'Whiteboard Tools: Mark-up on whiteboard (requires permission).' points to the whiteboard toolbar; 'Whiteboard Window: PowerPoint slides, programs and websites shared by the Moderator appear in this area.' points to the main whiteboard area; and 'Click the handset to let the Moderator know you are using the telephone to speak.' points to the handset icon in the audio section.
